Medications:

Area(s) to be Corrected (*examples*: skin problems, constipation, depression):

Goals: _____

Many people wish to be cured by others or some mechanical device (drugs or surgery), all the while by-passing their own involvement and personal responsibility. These people should seek their 'cure' from orthodox AMA physicians. Dr. Sisk is a Naturopath with a Ph.D. in nutrition - not an AMA physician. I understand the Aquarian bodyscience principle, that I am personally responsible for my health. I am seeking information and guidance from Aquarian bodyscience on how to make the best decisions on the subject of getting healthy and staying healthy.
